## **Mobilization 2006**

September 18, 2006

Greetings Brothers and Sisters:

The CWA National Union has adopted a resolution for an action plan to guide the United States in a campaign to promote the development of a policy by the Federal Government regarding viable high-speed network and to ensure that we have access to these jobs.

As a result of this resolution, we are asking for your support in the first of many phases of this important action.

You will find in your mail or at your work location a brief explanation of the resolution and a sticker. Please review the information and display the sticker on Wednesday, September 20<sup>th</sup>.

In Solidarity,

Liz Fisher & Bill Dunman  
Chairpersons  
Mobilization Committee
