CWA Local 4340

Mobilization 2008

October 2, 2008

Here we are again, moving right along... Soon, on October 6th in fact, it will be too late to register to vote. So, if you are not registered, you must do so quickly. Make your vote count! In addition, this whole country needs your support and you should not limit yourself and get the word out!

There are only four more weeks to get with the Legislative Committee at the Local to offer your help. Volunteers are still needed to go on walks and for upcoming phone banks. The election is not over and the battle not won until all working families are safe and secure! Unity is how we can combat the huge financial resources of the big companies and big government. Solidarity is how we negotiate and how we WIN! Do your part... In the very near future, we will represent most of you in a contract bargaining session of one type or another, regardless of your employer. Here is an example of the impact that we as a united front can help each other win what is fair, from "CWA History – A Brief Review:"

1963: General Telephone of California Workers Demand Equal Pay for Equal Work In October 1963, CWA members went on strike against General Telephone of California for wages and benefits comparable to those enjoyed by Bell employees in the state. At the time, it was possible for a General Telephone worker and a Bell worker to be doing the same type of work across the street from each other, but the General Telephone employee would be receiving considerably less compensation for the job than his/her Bell counterpart.

Just a few short weeks until the Presidential election (along with other positions and issues on the ballot), an election at the Local in which each member has a right AND RESPONSIBILITY to participate in (only takes a minute to return your filled in ballot), and contract negotiations that will prove pivotal to most of our members, in all Sectors.

Unity, Solidarity, Singularity, and Stability are critical now... We must act together to achieve our goal.

"Harmony, being the strength and support of all institutions, especially this..."
